

Life is better with **Blue!**

PristineBlue®

COMPLETE POOL & SPA
CARE SYSTEM - 2022

PristineBlue.com

Why Blue?

Complete pool and spa care system

Easy to use

Convenient concentrated liquid formula

EPA registered algaecide/bactericide*

NSF/ANSI/CAN 60 Certified

Excellent customer support from Certified Pool Technicians

THE SYSTEM

PristineBlue® is the cornerstone of the system. It is an algaecide/bactericide* that is added to pools and spas at start up and topped off routinely.

8 fl. oz. #12208

Quart (32 fl. oz.) #12232

Half Gallon (64 fl. oz.) #12228

PristineClean® is a scale and metal inhibitor. It prevents metal and mineral particles that enter your water from bonding to walls and other surfaces.

8 fl. oz. #13208

Quart (32 fl. oz.) #13232

Half Gallon (64 fl. oz.) #13228

PristineClear® clears cloudy water in pools or spas by bringing suspended particles together, enabling the filtration system to better remove the particles.

8 fl. oz. #01002

Quart (32 fl. oz.) #01003

PristineCheck™ is a water prep. It is added to pools and spas before the introduction of **PristineBlue®** to sequester calcium and other minerals for maximum effectiveness.

8 fl. oz. #13808

Quart (32 fl. oz.) #13832

Half Gallon (64 fl. oz.) #13828

*Nonpublic Health Bacteria

EnzyPure™ is a blend of biodegradable, environmentally friendly, plant-based enzymes designed to work with all swimming pool and spa water treatment programs.

Quart (32 fl. oz.) #85470

PristineExtra® contains 99% sodium di-chlor (granular chlorine). It is an effective shock treatment that can be used at start-up, during routine maintenance or for troubleshooting as needed. It is a primary sanitizer.

8 oz. #01047
1 lb. #18716
4 lb. #18780
25 lb. #18725

PristinePower® is a potassium monopersulfate shock oxidizer. It is used to oxidize organic contaminants that cause cloudy water. This product does not contain chlorine.

10 oz. #16910
1 lb. #16940
5 lb. #16980
25 lb. #44393

PristineBlue Mini Test Kit™ measures **PristineBlue®** level in pools and spas.

Test Kit #44272

PristineBlue® Spa Kit™ provides everything you need to start your spa.

Spa Kit #29108

PristineBlue® Start-Up Kit™ provides everything you need to start your pool (up to 16,000 gallons.)

Pool Start Up Kit #62851

Use Poolife® test strips for analyzing total alkalinity, pH and hardness levels and Poolife® balancers for adjusting pool and spa water.
